Maintaining Housing Affordability In Richmond

• The University will address concerns about the affordability of housing in Richmond with binding commitments and with action.

• When the City has determined its priorities and overall strategy UC Berkeley expects to make appropriate legally binding commitments to the City.

• University is specifically prepared to consider, for example:
  • the ideas of private developer contributions to a City-operated Housing Trust Fund;
  • support for City-planned inclusionary housing, and;
  • development of workforce housing to specifically serve the Global Campus.

Richmond City Council
• Invest in an Anti-Displacement Fund to subsidize the development of affordable housing units and protect low income tenants. This should be equivalent to a Housing Mitigation Fee, comparable to the median of other housing mitigation fees in the region. (City Council Resolution adopted 11/18/2015)

Raise Up Richmond Coalition:
• Invest in an Anti-Displacement Fund that guarantees affordable housing and protects longtime residents from eviction as a result of project development.
Recommendations to UCB (Received to Date)

Raise Up Richmond Coalition (cont’d):

• The University of California shall pay to the City of Richmond an amount equivalent to the amount that would be required under the City of San Francisco’s Jobs-Housing Linkage Program, or under any program adopted by the Richmond City Council prior to execution of the CBA and requiring payment of impact fees to the City to be used for affordable housing based on construction of non-residential space in the City. The City shall hold such funds in trust, and expend such funds only for development of affordable housing units within the City, for housing assistance programs provided to City residents, and for establishment of a local-nonprofit-owned land trust to advance these purposes. The target population for these funds will be households defined as “very low income” pursuant to City law. The City shall explore the potential to create a local-nonprofit-owned land trust with these funds. (submitted by David Sharples for Raise Up Richmond Coalition on 9/22/2015)

• Fund a rental assistance program for low-income housing cost burdened renters (Haas Institute).
• Support local rent control and renter protections (Haas Institute).
• Invest in the creation of a Community Land Trust, a strategy that can ensure a long-term stock of affordable housing. (Haas Institute)
• Expand participation in the Homeownership Voucher Program to facilitate Section 8 tenants reallocating their payments toward homeownership (Haas Institute)
