UNIVERSITY OF CALIFORNIA

All University governance authority rests with The Regents, is delegated from The Regents.

University of California Regents

Ten campuses
Five medical centers
Three federal laboratories
This is similar to how some governments are organized.
This is a diagram of the United States governmental system. Note the directional arrows go two ways. This is not descriptive of the UC system, where authority originates with the Regents and is delegated by them to the Chancellors and UC President.
The Regents own all University property, and delegates authority to campuses for managing that property in accordance with Long Range Development Plans The Regents have reviewed and approved.
REGENTS

The Regents meet every two months (approximately) and are appointed by the Governor for 12 year terms; can be reappointed. Full board and committee meetings are open to the public. Ex officio members include the Governor, the Lieutenant Governor, Speaker of the Assembly, Superintendent of Public Instruction, others.
UNIVERSITY OF CALIFORNIA
OFFICE OF THE PRESIDENT

The President’s office guides fiscal and business operations, translates Regental directive into policy.
If UC Berkeley and LBNL have an idea for developing the RBC, we request authority to do it from The Regents, working through and with UCOP.
LBNL is a Department of Energy facility; the University of California has a contract to manage it, but buildings are owned by DOE, and core funding is provided by DOE.
OUTCOMES WE HOPE FOR IN MAY

Regents approve RBC LRDP, grant permission to proceed with RBC.
BEYOND MAY
Projects with smaller budgets can be approved by Chancellor under authority delegated by The Regents; larger projects would return to Regents for review; significant LRDP amendments also return to Regents for review.
Diagrams oversimplified, omit many processes and factors relevant to development, including for example fiscal constraints.

UC Berkeley
Projected revenues in 2012/13: over half from research contracts and tuition

UC San Francisco
Projected revenues in 2012/13: 2X UC Berkeley revenues; over half from clinical enterprise
